

ALIN-ANDREI HEMECI

MACHINE LEARNING ENGINEER

Bucharest, Romania | alinhemeci@gmail.com | +40 759 461 885 | alinhemeci.ro

SUMMARY

Dynamic Machine Learning Engineer with a knack for transforming complex data into actionable insights. Skilled in building AI-driven solutions and adept at integrating machine learning with full-stack development to create innovative tools. Always eager to push the boundaries of what's possible with technology.

PROFESSIONAL EXPERIENCE

Machine Learning Engineer, Raiffeisen Bank

Aug 2023 - Present

- Chat with Database:** Developed an AI-driven conversational interface allowing users to query and retrieve database information using natural language. Integrated NLP techniques and optimized database interaction to ensure accurate and efficient real-time responses.
- Heimdall News:** Built a system that collects news articles from various sources and performs sentiment analysis to categorize the content. Leveraged machine learning models to analyze public sentiment trends and provide actionable insights.
- Factoring Leads:** Contributed to the development of an app that generates factoring clients based on predefined criteria. Worked on both frontend and backend, with additional involvement in implementing a machine learning component for enhanced client matching.

PROJECTS:

Stock Market Analysier

Tech Stack: Data Analysis/ML Tools, VueJs, Django, PostgreSQL, RestAPI.

- Developed a personal project that analyzes stock market trends based on user-inputted stock tickers. The system collects news for sentiment analysis, retrieves company data, and generates buy or sell predictions.

SKILLS

Python	Machine Learning Tools	HTML/CSS
JavaScript	Streamlit	Docker
Rest API	Airflow Pipelines/ML Flow	PostgreSQL

EDUCATION

Bachelor of Mechanical Engineering

Sep 2019 - Jun 2022

University of Manchester
